Sample Cookbooks

Create a file hello.rb under chef-repo folder	file '/tmp/motd' do content 'Hello Raghu !' end	action :create is not needed as it is the default action of a file resource # to test it in workstation chef-client --local-mode hello.rb
Delete a file Goodbye.rb	file '/tmp/motd' do action :delete end	action :delete has to be given explicitly chef-client --local-mode goodbye.rb

Create a file with more properties	file 'motd' do
	  path '/tmp/index.html'
	  content '<html>This is a placeholder for the home page.</html>'
	  mode '0755'
	  owner 'web_admin'
	  group 'web_admin'
	end	

Creating a Microsoft file	file 'C:\\tmp\\something.txt' do
	  rights :read, 'Everyone'
	  rights :full_control, 'DOMAIN\\User'
	  action :create
	end	

User	user 'Raghu' do
	  comment 'Raghuram'
	  uid '1500'
	  home '/home/raghu'
	  shell '/bin/bash'
	  password 'raghu'
	end	

Multiple Users	%w[ananta nabha swamy].each do |uname| id = 600 home="/home/#{umame}" user uname do comment 'A Dev. User' uid id group 'dev' home home mode '0755' shell '/bin/bash' end id = id + 1 end	

	names = ["suresh", "naresh", "gopi", "raju"]
	totalusers=names.count
	i=0
	id=700
	 while i < totalusers do
	  names.each do |uname|
	  id=id+i
	  home="/home/#{uname}"
	  user(uname) do
	  comment 'A Dev. User'
	  uid id
	  group 'dev'
	  home home
	  shell '/bin/bash'	

	`  i=i+1`
	` end`
	`end`
